Brainstorming & Idea Prioritization Template:

Step 1: Team Gathering, Collaboration and Select the Problem Statement

Brainstorm & idea prioritization

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

🕒 10 minutes to prepare

🕒 1 hour to collaborate

👤 2-8 people recommended

Before you collaborate

A little bit of preparation goes a long way with this session. Here's what you need to do to get going.

🕒 10 minutes

A Team gathering

Define who should participate in the session and send an invite. Share relevant information or pre-work ahead.

B Set the goal

Think about the problem you'll be focusing on solving in the brainstorming session.

C Learn how to use the facilitation tools

Use the Facilitation Superpowers to run a happy and productive session.

Define your problem statement

What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.

🕒 5 minutes

PROBLEM

Students were unaware of admission standards of universities and wasting time and money by seeking help of third parties. This project university admit eligibility predictor is web-based application in which students can register with their personal as well as marks details for prediction the admission in colleges. By this the students making decision for choosing a right college, without having to depend on Educational Consultancies.

Key rules of brainstorming

To run an smooth and productive session

Stay in topic.

Encourage wild ideas.

Defer judgment.

Listen to others.

Go for volume.

If possible, be visual.

STEP 2: Brainstorm, Idea Listing and Grouping

2

Brainstorm

Write down any ideas that come to mind that address your problem statement.

🕒 10 minutes

TIP

You can select a sticky note and hit the pencil [switch to sketch] icon to start drawing!

DHANUJA V

Make direct connections between students and universities to avoid intermediaries

Connecting with Alumni or students who are currently enrolled in the college

Provide references from trustable third party websites for a universities

Admission criteria for person with Disorders(PwD)

GOMATHI G

Prevent applicants from creating multiple user profiles to avoid data duplication and inconsistencies

Verify genuineness of the applicant to avoid any false applications

Apart from eligibility criteria make a comparison between multiple universities in the applicants preference list based on the entire fees for a particular stream/ course.This will be help the applicants to save a lot of money in the admission process

Collect and store all universities admission criteria to access from one place

KEERTHANA R

Government should provide a portal with all universities eligibility requirements listed and organised so that students can use them

Always look for university information and compare it to better understand how to choose a university

Students who applied to a university but were turned down should be informed,and if the university set is not filled,they should be given the opportunity

The top college is determined by many factors than just an institution's rating.It could not be a favourable environment for you,therefore researching the insitution would be good

MANISHA M

Proper guidance should be provided to the students according to their marks and other details

Colleges where we can explore our skills

Reputations Vs performance analysis in choosing a stream

Consistent data collection

3

Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. Once all sticky notes have been grouped, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you can break it up into smaller sub-groups.

🕒 20 minutes

Genuineness

Provide references from trustable third party websites for a universities

Always look for university information and compare it to better understand how to choose a university

Verify genuineness of the applicant to avoid any false applications

Prevent applicants from creating multiple user profiles to avoid data duplication and inconsistencies

Eligibility criteria

Proper guidance should be provided to the students according to their marks and other details

Government should provide a portal with all universities eligibility requirements listed and organised so that students can use them

Admission criteria for person with Disorders(PwD)

TIP

Add customizable tags to sticky notes to make it easier to find, browse, organize, and categorize important ideas as themes within your mural.

University Affordability and Preferences

Apart from eligibility criteria make a comparison between multiple universities in the applicants preference list based on the entire fees for a particular stream/course. This will help the applicants to save a lot of money in the admission process

Students who applied to a university but were turned down should be informed, and if the university set is not filled, they should be given the opportunity

Reputations Vs performance analysis in choosing a stream

Make direct connections between students and universities to avoid intermediaries

Data Collection

Consistent data collection

Collect and store all universities admission criteria to access from one place

Colleges where we can explore our skills

Connecting with Alumni or students who are currently enrolled in the college

The top college is determined by many factors than just an institution's rating. It could not be a favourable environment for you, therefore researching the institution would be good

Step 3:Idea Prioritization

4

Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

🕒 20 minutes
